→ Il tema:

## IL PURIFICATORE D'ARIA

In seguito al cambiamento dello scenario causato dalla pandemia, abitare in un **ambiente domestico sanificato** diviene sempre più importante. Abbiamo perciò ritenuto necessario concentrarci su una tematica attuale che si riflette sulla salute sia nella dimensione privata che collettiva.

Nuova gamma XXXX

Nuovo elettrodomestico

Interfaccia cellulare su  
piccolo elettrodomestico

## → Cos'è un purificatore?

Un purificatore d'aria è un apparecchio (fisso o portatile) che filtra l'aria che vi passa e trattiene tutte quelle particelle nocive, irritanti, potenzialmente allergiche e/o pericolose.

La scelta dipende dalla tipologia del filtro, dell'ambiente di utilizzo e dei consumi elettrici.

Il **purificatore d'aria portatile**, usato in generale per ambienti che possono arrivare ai 30 metri quadrati, risulta essere molto utile e in base agli spostamenti, nonostante la misura inferiore non consenta di riscaldare l'intera area.

## → Linea sanificante Ariete

### VAPORE JET

Uccide germi e batteri con il vapore, penetrando nelle fibre e toglie incrostazioni

### SANI JET

Nebulizzatore igienizzante, che pulisce le superfici degli ambienti

- \* Portabilità
- \* Dimensioni ridotte
- \* Ambiente di utilizzo circoscritto
- \* Immediatezza e facilità di utilizzo
- \* Focus su interaction design
- \* Focus su texture e colori
- \* Applicazione per monitorare AQI
- \* Cromoterapia LED

## → Tipologie di filtri

***Carboni attivi***

***Ionizzazione***

***Hepa***

***Sterilizzazione  
termodinamica***

***Elettrostatico***

## → Tipologie di filtri

### ***Carboni attivi***

- Tecnologia semplice ed efficace, anche economica
- Trattiene particelle nocive, eccetto le più grandi, grazie alla sua natura porosa

### ***Ionizzazione***

- Produzione di ioni positivi che si attaccano come una calamita alle particelle non buone
- Limite della produzione di ozono

### ***Hepa***

- Migliore strumento di purificazione dell'aria
- Problema dell'alto consumo elettrico

### ***Sterilizzazione termodinamica***

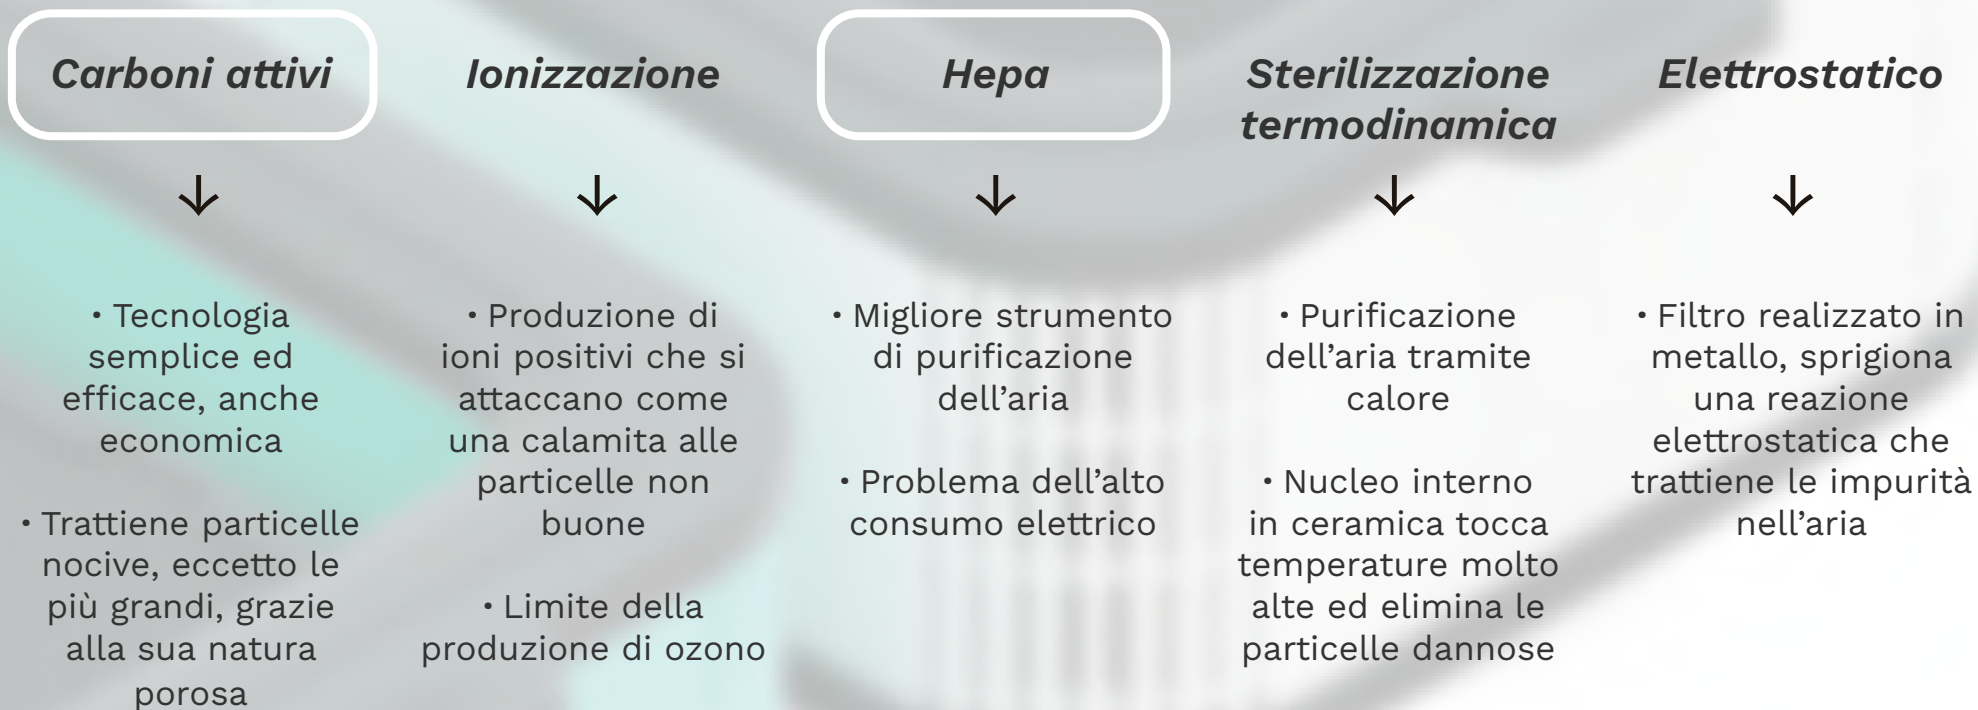

- Purificazione dell'aria tramite calore
- Nucleo interno in ceramica tocca temperature molto alte ed elimina le particelle dannose

### ***Elettrostatico***

- Filtro realizzato in metallo, sprigiona una reazione elettrostatica che trattiene le impurità nell'aria

Two Ariete smart humidifiers are shown side-by-side. The one on the left is white with a black digital display on top showing '23°C' and '67%'. The one on the right is orange with a black digital display on top showing '23°C' and '67%'. Both have a perforated top and a ribbed base. The brand name 'Ariete' is visible on the orange unit's base.

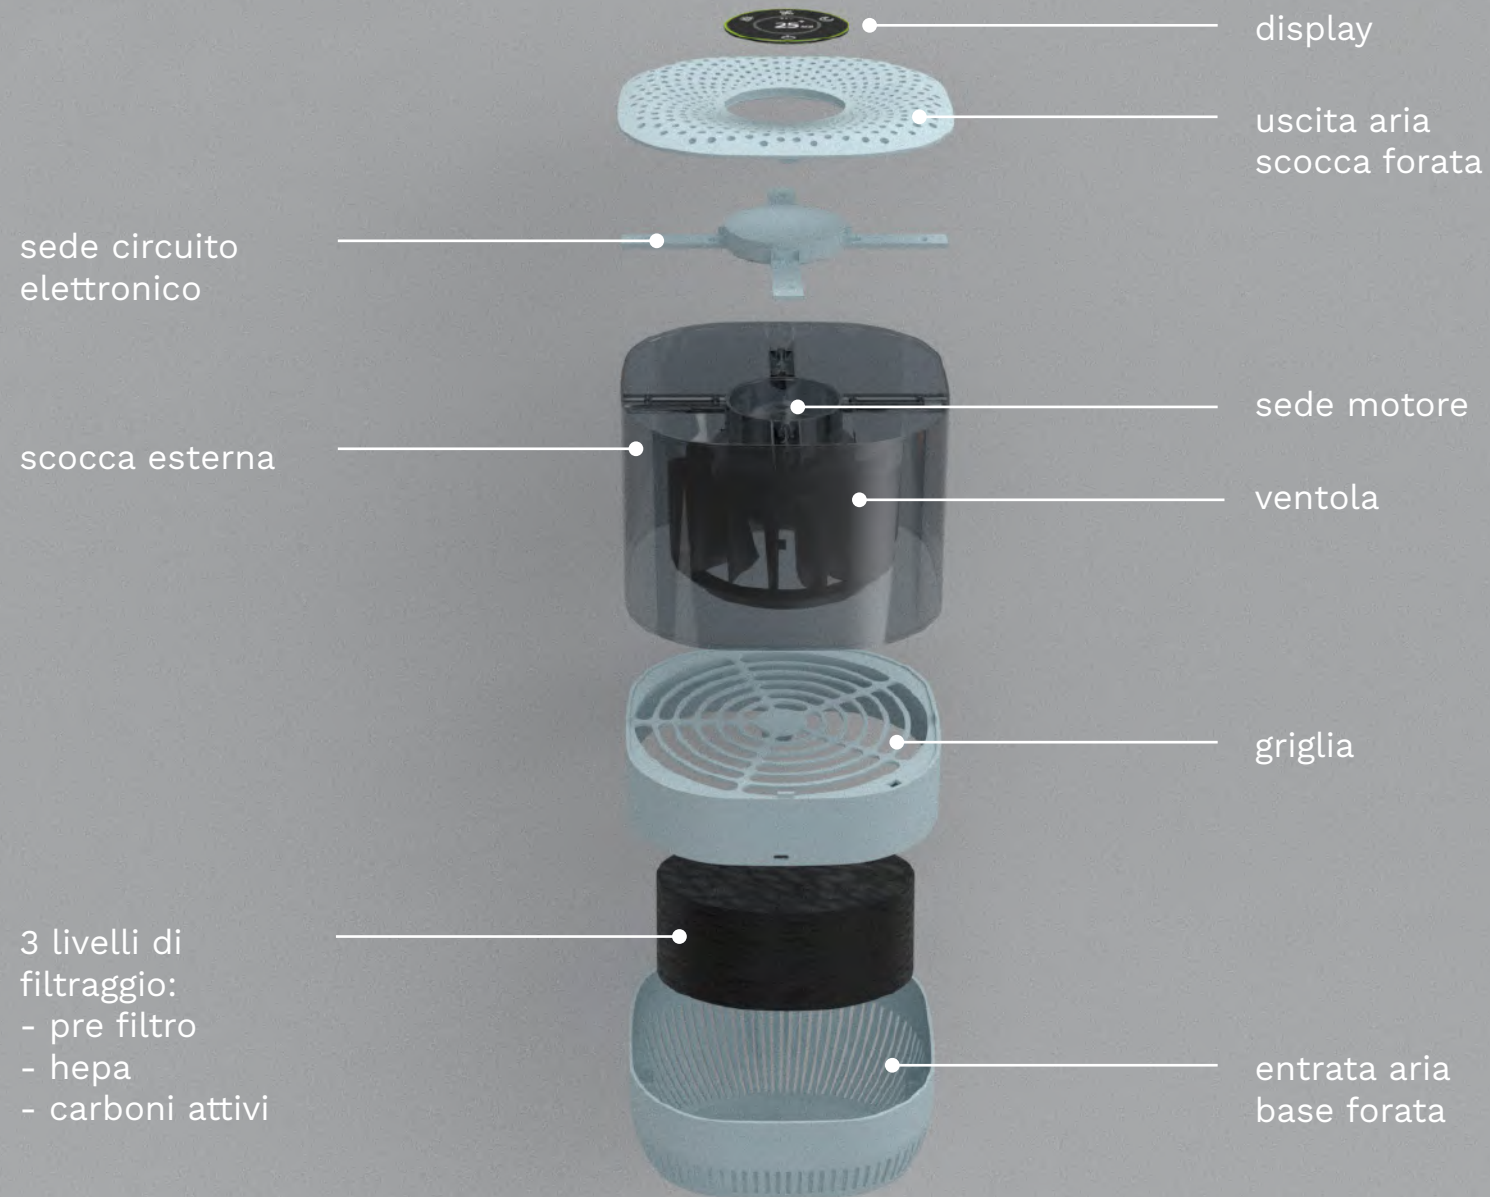

## → Caratteristiche

- \* Portabilità
- \* Ambiente di utilizzo circoscritto
- \* Flusso dell'aria circolare
- \* Duplice target - lavoratori e studenti
- \* Applicazione per monitorare AQI
- \* Cromoterapia LED
- \* Texture e colori differenziati in base al target

# CLEPSY

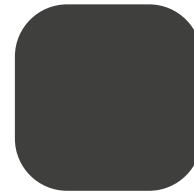

**TARGET** : studenti

**LUOGO DI UTILIZZO** : camera e luogo di studio

Palette più calda, per luogo  
stimolante e quotidiano.

# ICE

**TARGET** : adulto

**LUOGO DI UTILIZZO :** ufficio

Palette più fredda, per luogo  
professionale e serio.  
Il prodotto diventa anche oggetto di arredo.

# ANIMAZIONE

→ Ambientazioni

A circular orange device with a perforated surface, resembling a smart speaker or a smart scale. The central black panel features a power button at the bottom, a light icon on the left, a flower-like icon at the top, and a moon icon on the right. A dotted circle is also visible on the panel.

A circular orange device with a perforated surface. In the center is a black screen with a white dotted circle. Four white icons are arranged around the dotted circle: a flower at the top, a lightbulb on the left, a moon on the right, and a power button at the bottom. A small yellow dot is visible on the dotted circle.

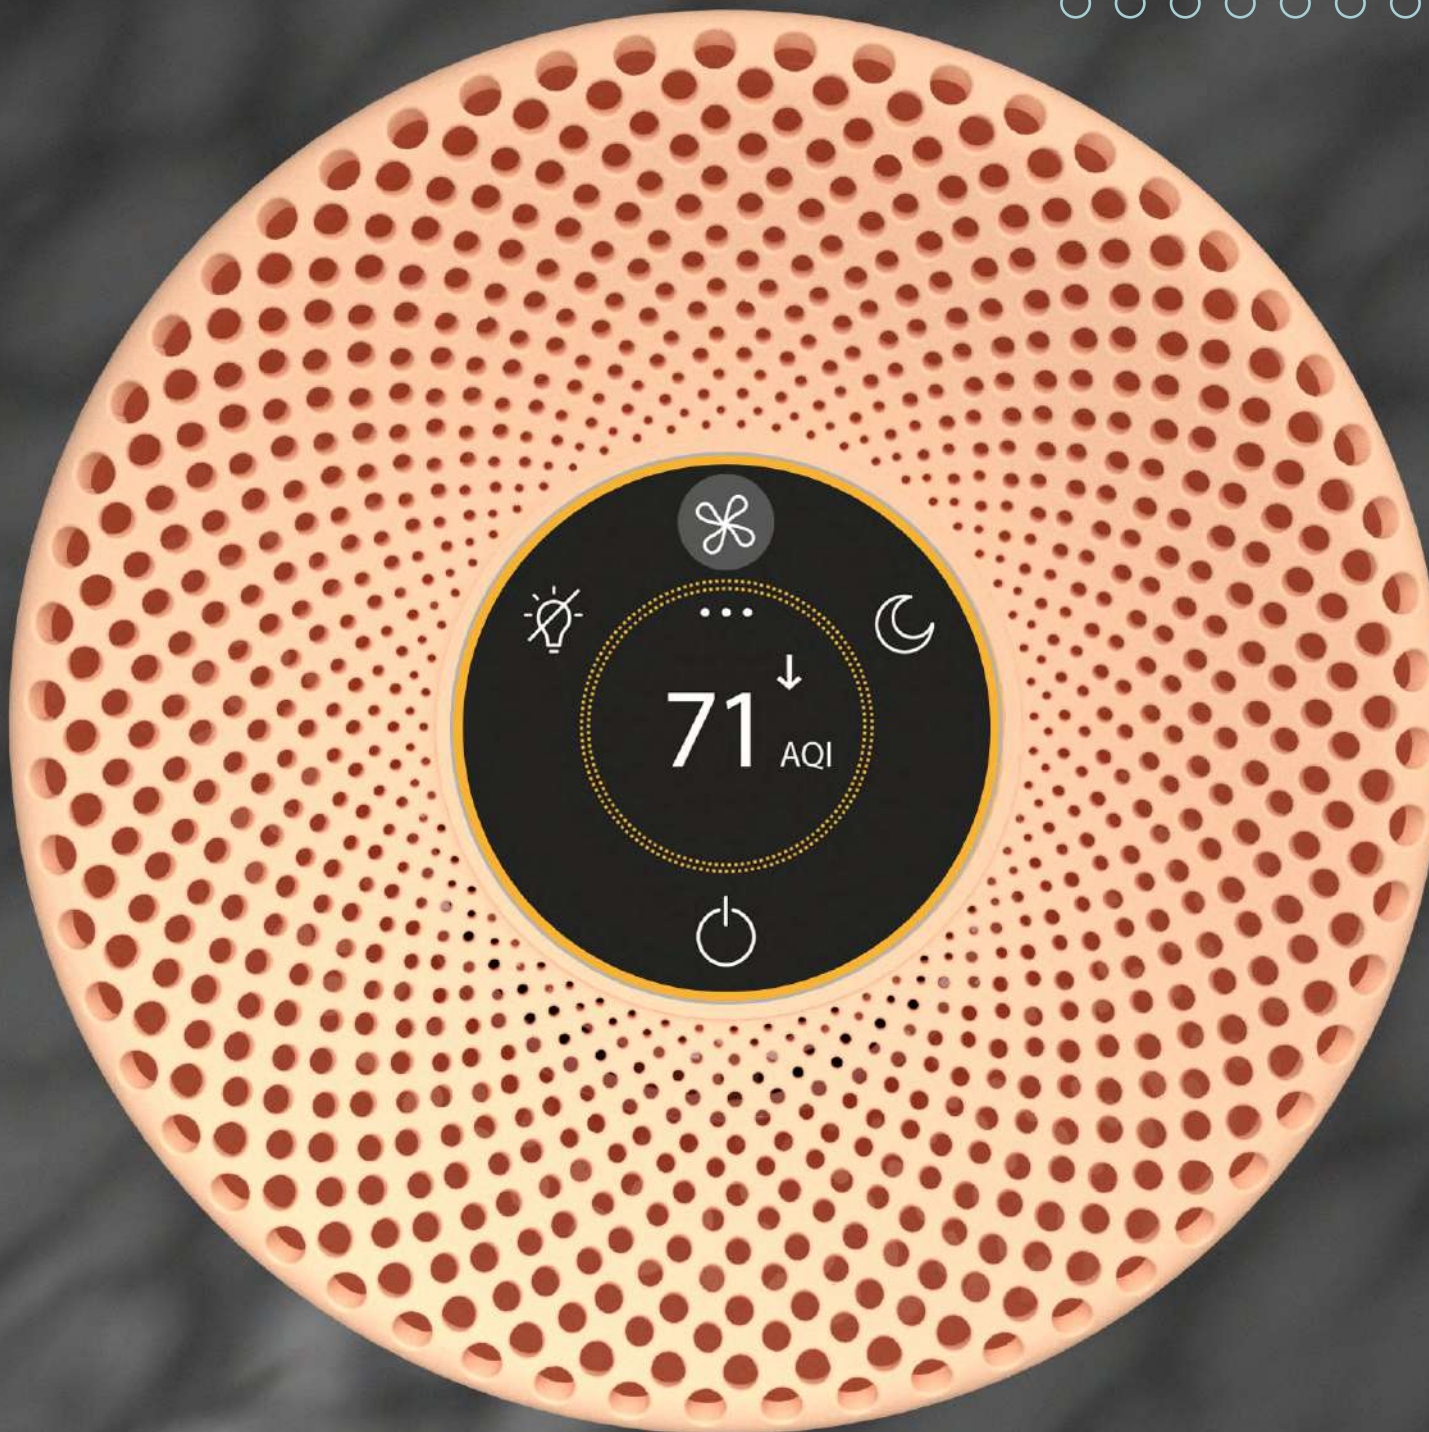

# Accensione

## Aumento velocità ventola

→ Display

A circular smart air purifier with a perforated orange face and a central digital display showing an AQI of 35. The display also features icons for a light, a flower, a moon, and a power button.

## Raggiungimento buon AQI

A circular smart air purifier with a perforated orange face and a central digital display. The display shows a temperature of 22°C with a downward arrow and 'AQI' next to it. It also features icons for a light bulb, a flower, a moon, and a power button. The device is set against a dark, textured background.

## Spegnimento display

A circular smart home hub with a perforated orange face and a central black display showing '26 AQI' and various control icons. The display includes icons for a light bulb, a flower, a moon, and a power button, along with an upward arrow and three dots. The device is set against a dark background.
