Skills

UX Research

Quantitative/Qualitative research, Personas, Experience mapping, Design Thinking, Usability testing, A/B testing.

Client Engagement

Cross-Culture communication, Project&Relationship Management, Stakeholder Presentation

UX/UI

Sketching, Wireframing, Design System, AI, Advance prototyping, Information Architecture.

Product Design

Sketching, 3D modelling, Rendering, Visual design, 3D printing.

Tools

Figma · ProtoPie · Framer · Adobe Create Suite · GitHub · Canvas · Rhino · Unity3D · KeyShot · Ultimaker Cura · HTML · CSS · C++ · WordPress · FigmaJam · Notion · Microsoft 365 · WeChat Mini Programs

Meaningful experiences

2026
Digital and Sustainable Project Management Course
IFOA

2025
Exhibition project "Cohub"
Milan Design Week

2025
Digital Cockpit HMI Workshop
BMW

2023
Publication "International Design"
Creac@tivity Emagazine

2019
Firenze Creactive City Workshop
UNESCO

Working Experience

UX Designer

RE:Lab S.r.l. · Reggio Emilia, Italy

Jan 2026 – Present

- UX/UI design solutions for upcoming Ferrari IC (Instrument Cluster) models.
- Designing advanced user interaction models for Stellantis Augmented Reality (AR) glasses experiences.
- Conducted benchmark analysis and usability testing of Chinese machine HMIs for the European market, collaborating with domain experts to validate software functionality.

UX/UI Designer Intern

Sopra Steria Next · Milan, Italy

Sep 2025 – Dic 2025

- Built and maintained a scalable Figma design system with 1.000+ components for a 5-person cross-functional team, ensuring consistency and scalability across enterprise-level products.
- Led website redesigns for large-scale corporations, defining new visual styles and optimizing product interface design end-to-end.
- Collaborated with multidisciplinary teams in an Agile environment.

UX Researcher & Interaction Designer (Thesis Project)

Politecnico di Milano · Milan, Italy

Jul 2025 – Mar 2026

- Developed an evidence-based UX framework for transparency and perceived safety in autonomous personal aerial vehicles
- Applied mixed-method research (50 online interviews + 20 in-person SUS/UEQ/SEQ sessions) combined with rapid prototyping to validate interaction concepts

UX Researcher & Product Development Consultant (University Project)

Jiangnan University × 富光 Fuguang · Wuxi, China

Feb 2025 – Jun 2025

- Conducted systematic user research on a thermal cup product line, mapping European consumer behaviours, usage contexts and unmet needs
- Developed product adaptation concepts covering form, material and functionality to align with European market expectations

UX/Aviation Designer and Client Consultin

MBVision · Italy / Finland

Jul 2021 – Dec 2023

- Designed the interior cabin for the LA-8 Seaplane — a hardware-software interaction challenge from concept through functional prototypes
- Led usability testing and qualitative research across aviation, automotive, and museum sectors
- Lead client-facing UX workshops across Italy and Finland, presenting research insights and facilitating co-design sessions with senior stakeholders
- _Responsible for editing the book "Hydroracers, the Schneider Trophy Epic | The Illustrated History".

Augmented Reality Instructor _100 hours

ITS MAR · Florence, Italy

Mar 2023 – Oct 2023

- Instructed a class of 23 students in the development of Augmented Reality applications and innovative design methodologies.

Coordinator and Designer _3 editions

Creac@tivity event · Piaggio Museum

2021 – 2023

- Coordinator, on/offline designer and curator of communication, internal and external relations of the Creac@tivity event, 3 editions, XVI (2021), XVII (2022), XVIII (2023) in collaboration with the Piaggio Foundation.

Education

MSc Digital and Interaction Design

Politecnico di Milano · Milan, Italy

2023 – 2025

Bilateral agreements Program

Jiangnan University · Wuxi, China

Feb 2025 – Aug 2025

BA Product & Communication Design

ISIA FIRENZE · Florence, Italy

2018 – 2021

Erasmus+ Exchange Program

Savonia University of Applied Sciences · Kuopio, Finland

Jan 2020 – Jun 2020
